Though some days are sunny and bright, remember it's winter time, and we are in the middle of cold and flu season.

Wash your hands -- a lot. No matter what line of work you're in, if you come in contact with people who are contagious, you have to wash your hands over and over.

Use alcohol-based hand sanitizer. If you can't get to soap and water, sanitizer can kill cold and flu germs.

Avoid getting close to people who are sick. For example, don't shake hands.

Keep your surroundings clean.
