Preparing articulate productive citizens for this world and the next through educators delivering GREAT education

TO: ALL PARENTS AND STAFF OF GETHSEMANE CHRISTIAN SDA JUNIOR ACADEMY

FROM: JAMES PEARSON, AHERA DESIGNATED PERSON

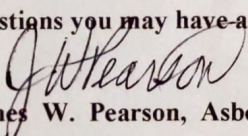

RE: REQUIRED ANNUAL AHERA NOTIFICATIONS

DATE: August 10, 2018 for 2018-2019 School year

The US Environmental Protection Agency's (EPA) Asbestos Hazard Emergency Response Act (AHERA) requires all schools to inspect building materials for the presence of asbestos. AHERA excludes schools from the inspection requirement if the school was constructed after October 12, 1988, and has a signed statement from the architect or project engineer responsible for constructing the school stating that no asbestos-containing building materials were specified for use in the construction of the school. Our school has been provided such a statement, and is, therefore, exempt from the requirement to conduct an asbestos inspection. We have no known or identified Asbestos Containing Building Materials in our school building. We are aware of the state and federal Asbestos regulations, and we are in compliance. Our school's Asbestos Management Plan is on file in the principal's office. The school's Asbestos Management Plan is considered public information and is available for review at any time during normal school hours of operations, (Monday to Friday , 8:30 AM to 3:00 PM)..

----AND----

The EPA requires us to annually notify you that we are aware of the AHERA regulation, and that we are in compliance. The Asbestos Program Manager, James Pearson, is available to answer any questions you may have about asbestos in our school building.

James W. Pearson, Asbestos Program Manager,
AHERA Designated Person
